

## WATER RECOVERY AND REUSE *Achieving Executive Order #13514*

Executive order #13514 mandates that governmental facilities meet a number of water reuse and reduction goals. In addition, AERTA FY07 identified sustainable water usage as the top-ranked environmental requirement of the Army.

Through the use of biological and filtration technology, Install Inc. and its design/build team, including World Water Works, can offer re-use solutions that meet and/or exceed the requirements of the mandate, as well as reducing operating costs, and improving operating efficiencies.

Opportunities include:

- \* Zero discharge for Industrial Plant Applications
- \* Irrigation Purposes
- \* Tactical Wash
