

PROJECT HIGHLIGHTS

GKN PRECISION FORMING Press Installation

This project scope included foundation engineering and installation of a Greenerd 330 Press. Install provided specialty foundations and associated miscellaneous equipment foundations. The pit included structural supports and grading to withstand 5000 lb load. In addition, we installed the Oil Containment System. Install then set the press, shop-blast, conveyor, robots, and other related equipment.

Project Value: \$400,000

Schedule: (30) Days
